nbsPlus

- **Effective polythene fencing to exclude/contain small wildlife around construction sites**
- **Tough plastic sheeting**
- **UV Stabilisers to prevent weathering and maintain performance**
- **Smooth surface makes the barrier difficult to climb**

Description

Visqueen Newt Barrier membranes are tough plastic sheeting used to exclude, or contain, newts and other small wildlife from entering hazardous areas such as constructions sites. Manufactured from LDPE with a green tint, it is available in 1m x 100m x 250mu roll format.

Resilient

The tough, UV stabilised, membranes are designed to resist extreme weather conditions therefore providing reliable protection throughout the works.

Installation

Visqueen Newt Barrier sheeting can be fixed to a simple post and rail timber fence, and the bottom edge entrenched to provide an impenetrable barrier.
