

- High clarity virgin grade Temporary Protective Sheeting
- Light duty applications including environmental protection such as dust and rain

Description A high quality virgin grade Temporary Protective Sheeting(TPS) manufactured from LDPE that can be used for a wide variety of applications.

General Information Visqueen Clear TPS film is available in a manageable roll size which is labour saving and covers large areas fast, so less jointing has to take place. The ease of fit helps speed up the protection process, reducing the risk of damage to exposed finishes.

Installation

Preparation : To ensure the highest performance of the material, TPS protection should be installed as soon as all surfaces or fixtures are clean.

Cut and Fit

Unroll the material and cut to fit the area which is going to be protected. Allow an overlap of at least 150mm to provide a dust free joint when taped securely using Visqueen PRO Single Sided Jointing Tape

VISQUEEN
 BUILDING PRODUCTS

Appendix A

Visqueen Building Products

Visqueen is the market leader in the manufacture and supply of structural waterproofing and gas protection systems. Visqueen offers the complete package - a proven, reliable range backed by a technical support service that goes unmatched in the market - everything you would expect from a reputable and ethical company.

System Accessories

To ensure full waterproofing protection please use the following certified system components:

- Visqueen High Performance (HP) Tanking Primer
- Visqueen TreadGUARD1500
