

CPD 1: GAS PROTECTION

Protecting against gas on contaminated land

With an ever-changing landscape of regulations and industry requirements, approaching Gas Protection can be a daunting task. But this need not be the case. Visqueen's CPD will guide and assist you through everything you need to know about protecting a building and its occupants against contaminants and harmful gasses on contaminated land.

GAS PROTECTION CPD IS:

- ✓ **BS8485: 2015 compliant**
- ✓ **NHBC & RSK Group Guidance on Methane & Carbon Dioxide compliant**
- ✓ **Delivered by Visqueen's Technical Service**

THE SEMINAR WILL COVER:

- ✓ **Risk assessment of harmful gasses on contaminated land**
- ✓ **Design solutions including under-slab ventilation**
- ✓ **Stakeholder requirements**
- ✓ **Project considerations**
- ✓ **Consequences of failure**
- ✓ **Visqueen support**
