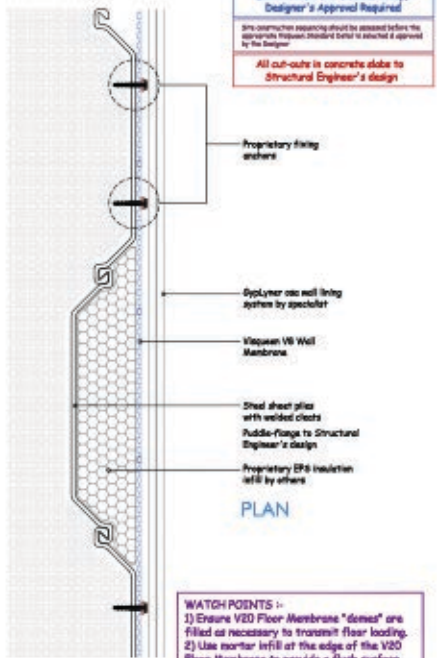
Detail Issued For Guidance Only, Designer's Approval Required

Site construction sequencing should be assessed before the appropriate Visqueen Standard Detail is selected & approved by the Designer

All cut-outs in concrete slabs to Structural Engineer's design



PLAN

WATCH POINTS :-
1) Ensure V20 Floor Membrane "domes" are filled as necessary to transmit floor loading.
2) Use mortar infill at the edge of the V20 Floor Membrane to provide a flush surface for bonding the CD 150mm Corner Strip.
